“G4 Organic Card Blackjack has enriched our gaming floor with this popular game and attracts important number of new customers – blackjack players, who are commonly seen in large live-game casinos,” explained Andreja Popovic, assistant to CEO.

“G4 Organic is a competitive advantage for every casino. We let our imagination go with the possibilities afforded by the multi-game principle together with colour variations and optional user experience upgrades.”

“The contemporary design will enhance both the value and the gaming experience casinos are able to provide to their players,” Popovic concluded.
