This week in Malaga, Spain

Electroncek to exhibit its products at Andalusian Gaming Show 2010

The firm will be present at Andalusian Gaming and Gambling Show in Malaga.

SPAIN | 03/09/2010

(Spain).- Electroncek announced that it will be present at Andalusian Gaming and Gambling Show, to be held in Malaga, Spain, from March 10-12, where the company will be presenting its G4 Organic Roulettes.

Dosniha, together with its partners V.I.D., will be present at stand number C-9: Organic Roulette for 6 players and Organic Roulette for 8 players.

The new generation of organic products are more versatile than the previous third generation Megastars, as players can now play two or more different games on only the one gaming machine. This new principle is called "Multigame" and allows expansion through the addition of Organic Video games, which integrate with existing Organic roulette electro-mechanical gaming machines.

On Organic Roulette, players can now enjoy the very well known American Roulette with a real, fully automated roulette cylinder and have an option to simply switch to one of the Organic Video games, such as Blackjack, the most popular of all card games. This combination of two games is very popular in other parts of the world.
