At Rosebud Casino

## Interblock's Megastar 8 installed in South Dakota

The Megastar is known for its reliability and robust but elegant design.

United States | 03/23/2010

(US).- Megastar 8, the electromechanical roulette for 8 players from Interblock, was recently installed at Rosebud Casino. The product is Interblock's most successful product on the market.

"We are very happy with the game, it is busy every night," said John Two Strike, Slot manager at the casino, which is located just north of Valentine, Nebraska on the South Dakota/Nebraska Hwy 83 Border.

The Megastar is known for its reliability and robust but elegant design. The carousel structure of the machine often becomes a focal point on the casino floor, adding something new and fresh to the existing casino floor mix.
