Elektroncek's Euroblock Star electromechanical Roulette installed in Jamaica

24/06/10

The new Elektroncek's Euroblock Star (EBS) electromechanical Roulette has been installed in Supreme Ventures newest Gaming Lounge called The Acropolis Gaming & Entertainment Centre, slated to be opened soon in Portmore, St. Catherine in Jamaica.

Elektroncek d.d. is proud to announce its latest installation in Portmore, the vibrant and second largest residential community in Jamaica. The Euroblock Star Roulette is a brand design developed by Elektroncek d.d. and is the second generation of roulettes with many innovations built-in. It is the result market research and years of accumulated knowledge and experience built up by the Elektroncek team.

Mr Klemen Sitar, Regional Sales Manager, Elektroncek d.d., commented:

"EBS is particularly popular in the European arcade market. It incorporates all modern gaming and security solutions. The Jamaican gaming lounge market is very mature and similar to some European arcade markets. Players and operators can quickly recognize and appreciate benefits and advantages of a good gaming machine."

"With 19" touch sensitive monitors, features like fast bet, wheel bet and multi-denomination, high security and low maintenance cost, the EBS is poised to become one of the best performing machines in Jamaica. This is the first Euroblock Star Roulette installed on the island and underscores the insight and innovativeness of the Supreme Ventures team in bringing the best technology to its operations and to Jamaican players."

Mrs Sonia Davidson, Vice President of Group Corporate Communications, Supreme Ventures, commented:

"We are proud of the relationship cemented with Elektroncek d.d. in bringing state-of-the-art gaming machines to Jamaica. We listen to our players and get a feel from them about the type of games they like to play and the betting features they want the machines to be programmed with. We are confident that this Roulette machine will be a hit with our players in Portmore."

We believe that Elektroncek's innovative gaming products are well suited to the exciting opportunities presented by the Jamaican market. We will work with our partners and customers to prove that our products deserve to be the leaders in the Jamaican gaming industry.
