At Magic Dice Arcade in Mol City

Elektroncek's second Organic Twin Roulette installed at Belgian casino

This was the second installation of the G4 Organic Twin Roulette from the agreed package of eight at this year's event in London IGE 2010.

BELGIUM | 08/20/2010

(Belgium).- Elektroncek's Organic G4 Products was successfully installed at the Magic Dice Arcade of Mol City in Belgium. The Organic Twins Roulette with 12 play stations has received a very positive response after first installation.

Dirk Nuyts, Director of Bingo Service, explained: "We are very proud to have the new G4 Organic Twin Roulette, which we recently installed in our gaming hall in Mol. We have chosen the Organic Twin Roulette because this professional version leans perfectly to the Casino's. The Organic Twin Roulette is made of high technical material and the program with all the options are the best available on the market. Elektroncek has a professional backup technical team and also the commercial team is enjoyable to work with." He added: "We hope our future is not limited to the roulettes but we hope to extend to the full range of multiplayer."

Organic Twins is a multi-game, multi-denomination, multi-player platform. The casino can select between any combination of available games: Roulette (Single Zero or Double Zero), Dice (Craps or Sic Bo) and Video games. The Multigame enabled twins gaming machine offers two mechanical random generators, any desired number of video game units and a player information display all in one single gaming machine.

This was the second installation of the G4 Organic Twin Roulette from the agreed package of eight at this year's event in London IGE 2010.
