It received the technical certificate in record time

## Elektroncek announced the approval of G4 Organic Roulette in Belgium

The "Organic Roulette" is part of the latest generation of Interblock gaming products.

BELGIUM | 08/19/2010

(Belgium).- The "Organic Roulette", from the latest generation of Interblock gaming products, has successfully passed the strict testing and is now entering the new Belgian arcade market. The firm received the technical certificate in record time, reflecting the expert knowledge of the brand and the excellence of the product.

Klemen Sitar, Regional Sales Manager at Elektroncek, commented: "At this year's fair in London IGE 2010 we have signed a special agreement with Bingo Service Company from Belgium about development and delivery of eight G4 Organic Twin Roulette with 12 play stations and four Organic Card gaming machines with Blackjack game."

"Our research and development department has quickly adapted our roulette gaming machine and passed the certification of the product. Most of their efforts have been made primarily on the gaming machine software, which had to be adjusted according to the specific requirements of the Belgian market. First of two Organic Twin Roulettes are already shipped, professionally installed, exceeding customers and players expectations," Sitar concluded.
